

Electronic Hit Scoring System 50m TG 6051 K

polytronic

Butt terminus

Target picture band
for sports shooting

Shooter's
monitor

Control unit
with printer

Description

The TG 6051 K is the most modern 50 m Electronic Hit Scoring System for pistol and rifle shooting. The integrated automatic target changer makes the system versatile and very easy and safe to use. The shooter sees the target picture with the hit position in graphic form on the monitor (3 zoom levels) and on the printout. The target picture automatically changes according to the selected program. All ISSF programs are available. The system is used for combined training and competition shooting.

Features

- Maximum operation security due to the most modern electronics
- Simple handling
- All ISSF programs
- Graphic presentation of the hit position
- 3 zoom levels
- x / y coordinates and radius on monitor and printout
- Integrated automatic target changer
- Silent result printout (also graphically)
- Plug-in module technique
- Simple installation
- Almost maintenance free
- Minimum wear
- Program Editor

Components

- Control unit complete with microprocessor, thermo-printer and shooter's monitor
- Butt terminus with target and target changer electronics in shot protected housing with splinter protection
- Data cables
- Power supply
- Barcode scanner to read-in shooting programs

Related Equipment

- PC for result printout and rank list
- Large screen and/or additional monitors
- LCD Monitor, Matrix-Printer
- Remote Control

Technical Specifications

Calibre:		Up to 9.65mm / 0.38"
Hit Detection:		Electronic
Measuring Accuracy:		≤ 5mm
Automatic Target Changer:		Target picture band with 5 different target pictures
Power:		Mains 230VAC 50Hz or 115VAC 60Hz
Dimensions:	Butt terminus	1400 x 325 x 1728 mm
	Control unit	270 x 430 x 470 mm
Weight:	Butt terminus	155kg / 342lb
	Control unit	12kg / 26lb
